

Request for Proposals (RFP) - Medical Education Grants

Addressing knowledge gaps for evidence-based care in patients with generalized myasthenia gravis (gMG) care

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support CME/CE programs in the following areas of interest.

Areas of Interest

- Enhance knowledge and competence of mechanism of action, efficacy, safety, and place in therapy of the use of FcRn antagonists in patients with gMG
- Identify patients who are eligible for FcRn therapy and develop a personalized treatment plan through shared decision-making, considering factors like dosing frequency, delivery method, and treatment goals, such as minimizing symptom expression
- Increase understanding of the impact of FcRn antagonists on albumin recycling

Program Format Considerations

- Program Preference: an IME satellite symposium at the 150th Annual Meeting of the American Neurological Association
- Enduring content for at least 12-months after launch of program

Target Audience

- Minimum CME/CE requirement, 1 credit for all proposals
- Educational credits in North America
- Neurologists, neuromuscular specialists and APPs

RFP Timeline

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.

Together
We
Discover

- RFP Open: February 20th, 2025
- Application deadline: March 3rd, 2025
- Grant award tentative notification: no later than March 21st 2025
