

## Request for Proposals - Medical Education Grants

### Addressing Knowledge and Competence Gaps in Juvenile Myasthenia Gravis

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support IME/CME programs in the following areas of interest.

#### Areas of Interest

1. Strengthen clinical expertise in the timely recognition and accurate diagnosis of Juvenile Myasthenia Gravis (JMG)
2. Explore the benefits and limitations of current treatment approaches, patterns of disease progression, transition from pediatric to adult care, and evolving treatment goals for patients with JMG.
3. Advance knowledge of emerging therapies and their mechanisms of action within the evolving treatment landscape for JMG.

#### Program Format Considerations

- Program to start after August 1, 2026
- Enduring content for at least 12-months after launch of program
- Preference will be given to innovative formats as recommended by IME providers

#### Target Learner

- Minimum IME/CME requirement, 1 credit for all applications
- Healthcare providers practicing in the United States
- Pediatric neurologists, pediatricians, neuromuscular specialists, general neurologists, and advanced practice providers.

#### RFP Timeline

- RFP Open: April 30, 2026
- Application submission deadline: June 15, 2026
- Grant award tentative notification: no later than July 15, 2026

Questions regarding this RFP can be submitted to [grants@argenx.com](mailto:grants@argenx.com). To access the portal to submit a grant application, please register and log into the [argenx Grants portal](#).

### About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence, and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.
