

Request for Proposals - Medical Education Grants

Addressing knowledge gaps in idiopathic inflammatory myopathy (IIM)

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support IME/CME programs in the following areas of interest.

Areas of Interest

- Enhance understanding of the presentation and pathophysiology of various IIM subtypes, with a focus on the role of autoantibodies and other underlying immune mechanisms.
- Improve awareness of biomarkers to promote timely and accurate diagnosis and classification of IIM subtypes.
- Explore the current treatment landscape and unmet needs, diagnostic barriers, co-morbidities and their real-world impact on patient outcomes and quality of life.
- Strengthen knowledge of current therapeutic options and emerging IIM therapies including their mechanisms of action within the evolving treatment landscape.

Program Format Considerations

- Program to start after May 15, 2026
- Enduring content for at least 12-months after launch of program
- Preference for round table or a variety of content formats as recommended by IME provider

Target Learner

- Minimum IME/CME requirement, 1 credit for all applications
- Educational credits in North America
- Neurologists, neuromuscular specialists, rheumatologists and advanced practice providers

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence, and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.
