

Request for Proposals - Medical Education Grants

Addressing knowledge gaps in individualized neonatal FC receptor (FcRn) inhibitors for the management of generalized myasthenia gravis (gMG) care

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support IME/CME programs in the following areas of interest.

Areas of Interest

- Increase understanding of dosing strategies and safety profiles of FcRn antagonists based on mechanism of action (including infections, vaccine response and the impact on albumin), treatment considerations compared to traditional therapies, and potential improvements in quality of life.
- Enhance knowledge of efficacy and safety of FcRn therapy in patients with newly diagnosed and early gMG.
- Advance competence in recognizing appropriate candidates for FcRn therapy and developing a personalized treatment plan through shared decision-making, considering factors such as dosing frequency, route of administration, patient preference and treatment goals, such as minimal symptom expression.

Program Format Considerations

- Program to start after July 1, 2026
- Enduring content for at least 12-months after launch of program
- Preference for round table or a variety of content formats as recommended by IME provider

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence, and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.

Together
We Discover

Target Learner

- Minimum IME/CME requirement, 1 credit for all applications
- Educational credits in the United States
- Neurologists, neuromuscular specialists, and advanced practice providers

RFP Timeline

- RFP Open: March 2, 2026
- Application submission deadline: April 30, 2026
- Grant award tentative notification: no later than June 15, 2026
