argenx

Request for Proposals (RFP) - Medical Education Grants

Addressing knowledge gaps to enhance understanding of multifocal motor neuropathy (MMN)

argenx supports the global healthcare community's independent initiatives (e.g., research, quality improvement, and education) to improve patient outcomes in areas of unmet medical need that are aligned with argenx medical and scientific strategies. Through this RFP, it is our intent to support CME/CE programs in the following areas of interest.

Areas of Interest

- Enhance understanding of pathophysiology of MMN and heterogeneity of disease presentation
- Address diagnostic barriers and gaps in applying standardized criteria and discuss strategies to promote timely and accurate MMN diagnosis
- Strengthen knowledge of emerging therapeutic agents and their mechanisms of action in the evolving treatment landscape of MMN
- Explore existing gaps in disease monitoring, prognostic indicators, current standard of case, and real-world impact of MMN on patients' quality of life

Program Format Considerations

- Preference will be given to innovative formats as recommended by educational provider
  Enduring content for at least 12-months after launch of program

Target Audience

- Minimum CME/CE requirement, 1 credit for all proposals
- **Educational credits in the US, Canada and Europe**
- Neurologists, neuromuscular specialists and APPs

RFP Timeline

- RFP Open: August 1st, 2025
- Application deadline: September 15th, 2025
- Activity start date: December 10th, 2025

Questions regarding this RFP can be submitted to grants@argenx.com.

About argenx

Decisions for grants are made through a formal, grant review and decision-making process. The Grant Review Committee assesses and approves applications based upon need, design, scientific rigor, independence and compliance. Approvals depend on available funding, the volume of requests, and alignment with argenx's areas of interest.
